

Exceptional service in the national interest

B I O G R A P H Y

John Clymo

*Infrastructure Operations Associate Labs Director
Sandia National Laboratories*

As the Infrastructure Operations Associate Labs Director for Sandia National Laboratories, John Clymo provides leadership to effectively and efficiently manage infrastructure operations, including safeguards and security, environmental restoration and waste management, laboratory facilities and construction, and emergency management.

Prior to joining Sandia, John spent more than 30 years in facility and infrastructure operations, maintenance, and construction for U.S. Department of Energy (DOE) contractors, university-run laboratories, U.S. Department of Defense military installations, and a college campus. He was the Director of Infrastructure Programs at the Idaho National Engineering and Environmental Laboratory, where he led physical assets maintenance and operations activities.

John served for two years as Senior Manager of Business & Operations for Lawrence Livermore National Laboratory and five years as Deputy Manager for Operations at the Nevada National Security Site. While engaged in DOE work, he served eight years in leadership positions with the Energy Facilities Contractor Group facilities subgroup.

Prior to his DOE work, John spent 18 years with Johnson Controls/Pan Am World Services as General Manager and in other management roles. He also served on the board of directors for three different international facility management companies operating in the Asia/Pacific region.

Sandia National Laboratories is a multi-mission laboratory managed and operated by National Technology & Engineering Solutions of Sandia, LLC, a wholly owned subsidiary of Honeywell International, Inc., for the U.S. Department of Energy's National Nuclear Security Administration under contract DE-NA0003525.
